

Software developer Java (f/m/d)*

Permanent

Full-time

Warum zu uns

Empower People. Create Success. At Tagueri, our people and teamwork take center stage. We are passionate about what we do, contribute proactively, and give our very best - both professionally and personally - every single day. Together, we celebrate our achievements, big and small, genuinely support one another, and take pride in each other's success. Advance your career with us and explore a wide range of opportunities to develop individually, share and expand your knowledge and ideas, and take ownership of your own projects.

Was wir gemeinsam vorhaben

- **Design and implement customer solutions:** Oversee the entire development process of frontend and backend applications.
- **Work with modern technologies:** Apply your expertise in backend development, microservices, cloud, and CI/CD in a targeted way.
- **Work agile and collaboratively:** Collaborate closely with internal and external partners in an agile environment.
- **Execute exciting projects:** Take on responsibilities in architecture, DevOps, system integration, and test automation.
- **Stakeholder Management:** Communicate both internally and externally, and collaborate closely with project teams, stakeholders and customers.

Worauf Du Dich freuen kannst

Our Unique Corporate Culture:

- A warm and appreciative work environment where every personality matters
- Open communication and accessibility— from junior team members to senior executives
- Numerous team and company events, including our annual summer festival with our families

Our Benefits for Well-being and Growth:

- Smart working options, such as remote work, flexible working hours, sabbaticals, and workations

Our Shared Journey:

- Comprehensive onboarding with an extensive mentoring program
- A wide range of internal training opportunities and external development support
- An international exchange program to foster personal and professional growth within the corporate group

And much more.

Was Du wissen solltest

We're looking for personalities! That's why we don't evaluate your application solely in relation to a specific position, but rather as an application to join Tagueri as a company. In a personal conversation, we'll work together to find out whether your goals and our vision align. Don't see yourself reflected in the listed topics or locations? Feel free to send us an unsolicited application. We offer similar opportunities at other locations as well! We'll tell you everything else in a personal conversation. Please send your documents either by email to bewerbung@tagueri.com or use the "Apply Now" button (maximum file size: 35 MB).

Womit Du überzeugst

- You hold a degree in a technical field (e.g., engineering, computer science, industrial engineering, or a comparable discipline).
- You have at least five years of recent, relevant professional experience in Java development.
- You have strong knowledge of software development, preferably with a focus on C++.
- If you are familiar with embedded systems, especially Linux-based systems, this will be a strong asset.
- You have experience with Agile/Scrum software development, Continuous Integration & Delivery, and test automation (JUnit, Cucumber).
- You are familiar with tools such as Linux, IntelliJ, Jenkins, GIT, and BitBucket.
- You have excellent English skills, both written and spoken.
- Ideally, you also have knowledge of German.
- You are willing to undergo a security screening.
- Note: Please submit your CV in English or German.

Wer wir sind

Wir bei Tagueri sind Brückenbauer zwischen strategischer Unternehmensberatung und operativer Umsetzung. Mit rund 600 Mitarbeitenden sind wir deutschlandweit im Einsatz. Zu uns gehört auch der Energiespezialist con|energy consult gmbh. Mit unseren praxisbezogenen Beratungsmethoden und fundierter Technologieexpertise unterstützen wir namhafte Unternehmen aus den Branchen Automotive, Energie, Luft- und Raumfahrt, Bahn und Verteidigung. Die Herausforderungen unserer Kunden sehen wir als Chance, gemeinsam innovative und zukunftsfähige Lösungen im Technologie-, Projekt- und Prozessmanagement zu schaffen.

*Wir bekennen uns zu den Grundsätzen der Gleichbehandlung und Nichtdiskriminierung. Die Vielfalt unserer Mitarbeiterinnen und Mitarbeiter in Bezug auf Geschlecht, Hautfarbe, Alter, Herkunft, persönliche Interessen, Religion, sexuelle Orientierung und Geschlechtsidentität betrachten wir als Bereicherung. Diskriminierendes Verhalten wird von uns nicht toleriert. Dieses Bekenntnis zu Vielfalt und Inklusion haben wir durch die Unterzeichnung der Charta der Vielfalt bekräftigt.
