

Consultant Electronics Engineering (f/m/d)*

Permanent

Full-time

Warum zu uns

Empower People. Create Success. At Tagueri, our people and teamwork take center stage. We are passionate about what we do, contribute proactively, and give our very best - both professionally and personally - every single day. Together, we celebrate our achievements, big and small, genuinely support one another, and take pride in each other's success. Advance your career with us and explore a wide range of opportunities to develop individually, share and expand your knowledge and ideas, and take ownership of your own projects.

Was wir gemeinsam vorhaben

- **Electronic Design Ownership:** Take full responsibility for the design and development of complex PCBAs.
- **Architecture Implementation:** Convert system architecture into schematics and BOM.
- **Simulation & Validation:** Perform signal integrity simulations and validate designs through lab testing.
- **Documentation:** Ensure all design documentation is complete and accurate.
- **Collaboration:** Work closely with layout specialists and cross-functional teams.
- **Quality Assurance:** Apply "Design for EMC" principles and ensure compliance with signal integrity standards.
- **Stakeholder Management:** Communicate both internally and externally, and collaborate closely with project teams, stakeholders and customers.

Worauf Du Dich freuen kannst

Our Unique Corporate Culture:

- A warm and appreciative work environment where every personality matters
- Open communication and accessibility— from junior team members to senior executives
- Numerous team and company events, including our annual summer festival with our families

Our Benefits for Well-being and Growth:

- Smart working options, such as remote work, flexible working hours, sabbaticals, and workations

Our Shared Journey:

- Comprehensive onboarding with an extensive mentoring program
- A wide range of internal training opportunities and external development support
- An international exchange program to foster personal and professional growth within the corporate group

And much more.

Was Du wissen solltest

We Are Looking for Unique Personalities!At Tagueri, we don't just evaluate applications for a specific position - we see every application as an opportunity to connect with talented individuals. In a personal conversation, we'll explore together whether your goals and our vision are a great match. Don't see a suitable role or location? No problem! Feel free to send us an unsolicited application - we have similar opportunities at other locations as well. We'd love to share more details with you in person. Send us your application via email at bewerbung@tagueri.com or use the "Apply" button (maximum file size: 35 MB).

Womit Du Überzeugst

- You have a completed degree (at least Bachelor) in Electrical Engineering (Electronics) or higher
- You bring at least 5 years of experience in a comparable role, having led multiple full PCBA development cycles
- You have experience designing PCBAs with high-speed signals and interfaces
- You are familiar with guiding layout processes and working with layout specialists
- You have proven experience in signal integrity simulation and implementation

- You understand board-level constraints and external interface transitions (e.g., connector transitions & S-parameter compositions)
- You apply “Design for EMC” principles effectively
- You are confident in validating designs using simulations and lab equipment
- You live in the Netherlands or nearby
- You are fluent in spoken and written English and Dutch.
- You live in the Netherlands or nearby.
- Note: Please submit your CV in English or German.

Wer wir sind

Wir bei Tagueri sind Brückenbauer zwischen strategischer Unternehmensberatung und operativer Umsetzung. Mit rund 680 Mitarbeitenden sind wir deutschlandweit im Einsatz. Zu uns gehört auch der Energiespezialist con|energy consult gmbh. Mit unseren praxisbezogenen Beratungsmethoden und fundierter Technologieexpertise unterstützen wir namhafte Unternehmen aus den Branchen Automotive, Energie, Luft- und Raumfahrt, Bahn und Verteidigung. Die Herausforderungen unserer Kunden sehen wir als Chance, gemeinsam innovative und zukunftsfähige Lösungen im Technologie-, Projekt- und Prozessmanagement zu schaffen.

*Wir bekennen uns zu den Grundsätzen der Gleichbehandlung und Nichtdiskriminierung. Die Vielfalt unserer Mitarbeiterinnen und Mitarbeiter in Bezug auf Geschlecht, Hautfarbe, Alter, Herkunft, persönliche Interessen, Religion, sexuelle Orientierung und Geschlechtsidentität betrachten wir als Bereicherung. Diskriminierendes Verhalten wird von uns nicht toleriert. Dieses Bekenntnis zu Vielfalt und Inklusion haben wir durch die Unterzeichnung der Charta der Vielfalt bekräftigt.
